

TECHNICAL DATA SHEET

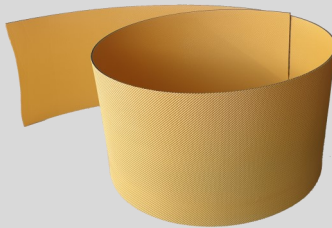

PROTECTIVE TAPE EL125

Cable protection tape

PRODUCT DESCRIPTION

Protective tape with reinforced structure EL125 is made from polyethylene material. Product colour is yellow with following marking: "Kraft-kabel".

APPLICATION AREA

Protective tape is used to add additional protection to high and low voltage underground cables, by giving a warning for the cables location if the tape is buried above the cable.

PRODUCT DIMENSIONS

Width, mm	125 (±2)
Thickness, mm	1.8 (±0.2)
Length, m	50 (±1m)

Marking: "Kraft-kabel"

PRODUCT PARAMETERS

Parameter	Value
Material	Polyethylene (PE)
Tape roll weight, kg	10 (±0.2)
