Self-leveling type covers with reinforced concrete support rings.

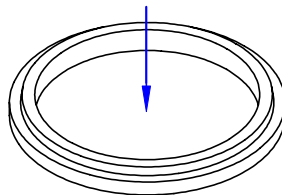

DRAWING No.:	VERSION	REVISION	REVISION STATUS
LV Lukas izbuve ar gredzeniem	EN	1	ACTUAL

Self-leveling type cover DN 700 mm

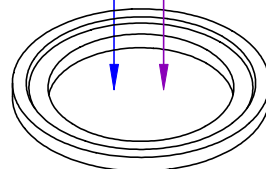

Frame neck size: Ø680 - 695 mm

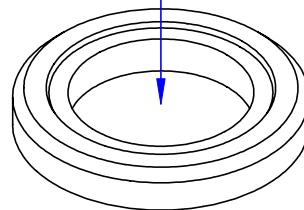

Adapter
TXS/710/80
Use for covers with frame
neck size Ø 680-695 mm

Height-adjustment ring
920/665 mm
h = 60 mm

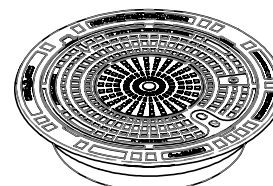

Support ring
1061/665 mm
h = 160 mm

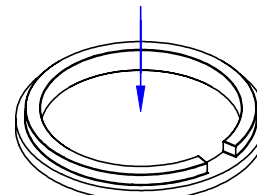

EVOPIPES DN 800, 1000,
1200, 1600 mm chambers

Self-leveling type cover DN 600 mm

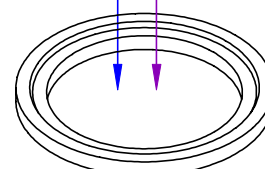

Frame neck size: Ø610 - 630 mm

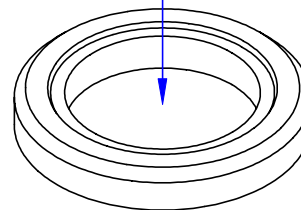

Adapter
TXS/635/80/N
Use for covers with frame
neck size Ø 610-630 mm

Height-adjustment ring
920/700 mm
h = 60 mm

Support ring
1061/700 mm
h = 160 mm

EVOPIPES DN 600 mm chambers

Stationary type covers with polymer and reinforced concrete support rings.

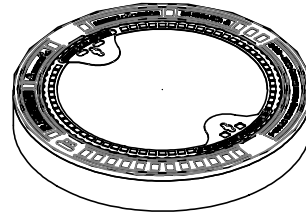

Stationary type cover DN 746/760 mm

Frame size: Ø745 - 785 mm

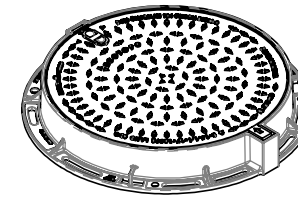

Stationary type cover with frame encapsulated in concrete DN 785 mm

Frame size: Ø745 - 785 mm

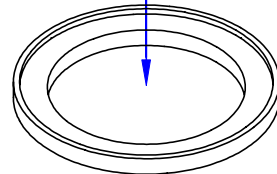

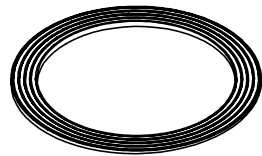

Stationary type cover DN 746/760 mm*

Frame size: Ø745 - 785 mm

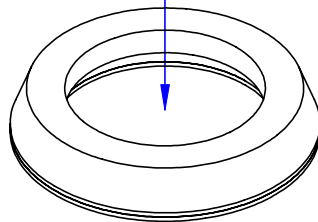

Height-adjustment ring with
slope **T1K/625/9/22**
Use if necessary

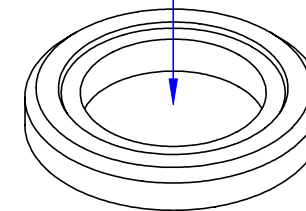

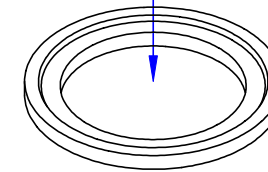

Height-adjustment ring
T1R/625
h = 40, 60, 80, 100, 120 mm

Support ring
T3/615/BR
h = 165 mm

EVOPIPES DN 600, 800, 1000,
1200, 1600 mm chambers

Height-adjustment ring
920/665 mm
h = 60 mm

Support ring
1061/665 mm
h = 160 mm

EVOPIPES DN 800, 1000,
1200, 1600 mm chambers

* Stationary type cover with frame (doesn't apply to frames encapsulated in concrete).

Examples of installed self-leveling and stationary type covers.

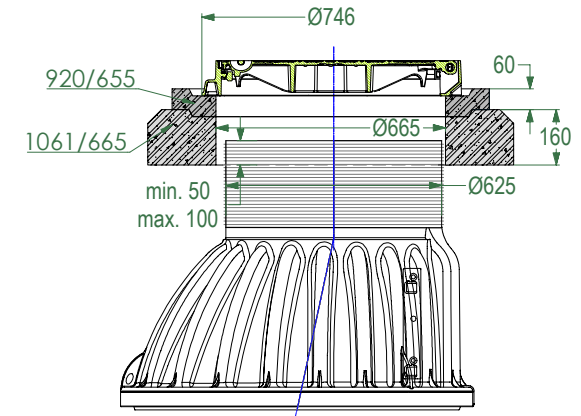

Installation of DN700 mm self-leveling type cover with polymer support ring with chamber cone.

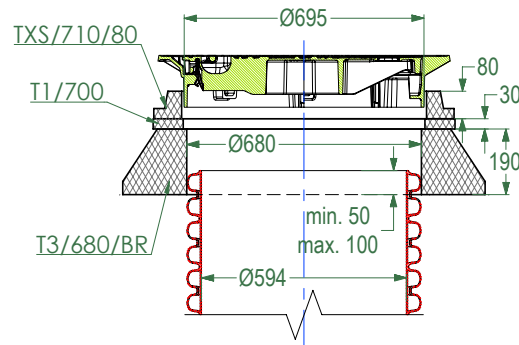

Installation of DN600 mm self-leveling type cover with polymer support ring with chamber cone.

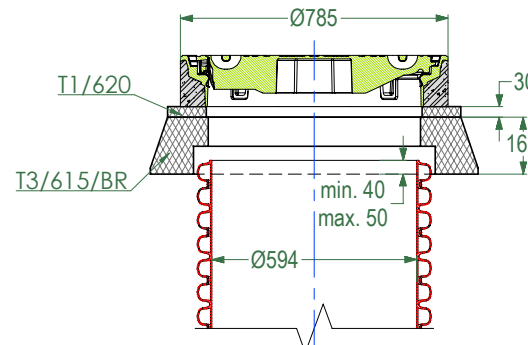

Installation of DN746 mm stationary type cover with reinforced concrete support ring with chamber cone.

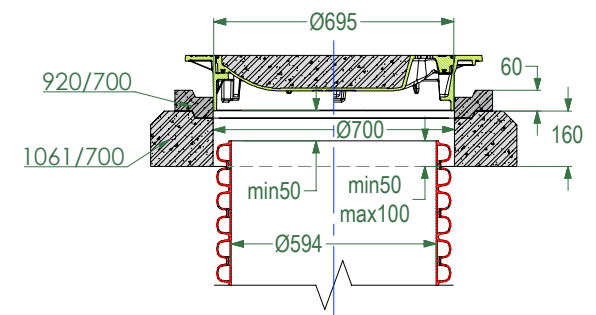

Installation of DN700 mm self-leveling type cover with polymer support ring with DN/ID 600 mm chamber.

Installation of DN785 mm stationary type cover with polymer support ring with DN/ID 600 mm chamber.

Installation of DN700 mm self-leveling type cover with reinforced concrete support ring with DN/ID 600 mm chamber.

Note.

Height-adjustment rings, T1/700, T1/620, 920/700, 920/665 and others, must be installed if it is necessary to increase height of the cover.
