

# TECHNICAL DATA SHEET

## Warning tape

"Attention, wastewater pressure pipeline"

### PRODUCT DESCRIPTION

The tape is resistant to frost, heat and moisture. The warning tape is made of LDPE material.

Thickness: 0.15 mm Width: 100 mm Length: 250 m.

Colour: yellow (other colours available on request).

Text on the tape (letters in red): "Attention, wastewater pressure pipeline" or any other orderer's text, colour or logo, depending from the quantity ordered.

### APPLICATION AREA

The tape should be laid in the ground approximately 20 - 40 cm above the wastewater lines, so that during the digging works tape would be damaged first, warning in time of location of pipelines and preventing those of pipelines accidental damage.

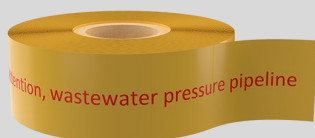

### PRODUCT DIMENSIONS

Length, m	250
Width, mm	100
Thickness, mm	0.15
Working temperature	35°C / +35°C
Min service life	40 years
