

# CERTIFICATE OF CONSTANCY OF PERFORMANCE

|                            |                                                                                                                                                                                                                                                                                                                                         |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product</b>             | polyethylene (PE) pressure pipes                                                                                                                                                                                                                                                                                                        |
| <b>Type</b>                | PE 100-RC (Ultrastress, Ultrastress Visio, Ultrastress Protect, Ultrastress Tracer) DN/OD PE100-RC (20, 25, 32, 40, 50, 63, 75, 90, 110, 125, 140, 160, 180, 200, 225, 250, 280, 315, 355, 400) SDR 11, SDR 13.6, SDR 17                                                                                                                |
| <b>Intended use(s)</b>     | for water supply, and drains and sewers under pressure                                                                                                                                                                                                                                                                                  |
| <b>Performances</b>        | geometrical characteristics – conforms;<br>elongation at break – conforms;<br>longitudinal reversion – conforms;<br>resistance to hydrostatic pressure – conforms;<br>resistance to Slow Crack Growth (SCG) – conforms<br>(SCG for size group 2 (CEN/TS 12201-7) is assessed<br>by Strain Hardening Test (SHT) according to EN 12201-2) |
| <b>Manufacturer</b>        | SIA "Evopipes",<br>Langervaldes iela 2a, LV-3002 Jelgava, Latvia                                                                                                                                                                                                                                                                        |
| <b>Manufacturing plant</b> | SIA "Evopipes",<br>Langervaldes iela 2a, LV-3002 Jelgava, Latvia                                                                                                                                                                                                                                                                        |
| <b>Requirements</b>        | LST EN 12201-2:2024                                                                                                                                                                                                                                                                                                                     |

**This certificate is issued having performed actions prescribed for system 1+ in STR 1.01.04:2015 and confirms that the product complies with requirements set out in this certificate.**
